CCA LLC is seeking a **Connecticut Licensed Professional Engineer** with a minimum of 5 years of experience in all aspects of Civil/Site Engineering to join a growing and dynamic firm in its Brookfield Office. For nearly 40 years, CCA has been a leader in civil and site engineering in the Fairfield, Litchfield and New Haven County areas of Connecticut. A multi-disciplined firm providing land surveying, environmental, civil engineering and Landscape Architecture services, CCA is well-known and highly regarded by local and state agencies. CCA has created a sister company in New York State called Tri-County Engineering and Surveying. This recent growth has created opportunities to expand from the current 16 team members and requires the addition of licensed personnel.

Applicant must have experience in the design of residential and commercial site plans and design calculations for a variety of civil engineering projects:

Key Responsibilities:

- Interact with clients to determine needs and advise on realistic goals of the endeavor
- Perform engineering calculations (including but not limited to storm sewer & surface hydrology modeling) and develop site plans
- Manage projects to time and fee schedule budgets
- Research economic alternatives to project components
- Present applications and testimony to land use boards and commissions
- Develop and prepare construction cost estimates and reports for a range of civil projects
- Interact with other professionals, attorneys, developers, contractors and public agencies
- Assist firm principals with business development efforts

Position Requirements:

- Bachelor of Science in Civil Engineering and Registered Professional Engineer in Connecticut, New York Professional Engineering license a plus
- Minimum five years' experience in site design for residential, commercial and industrial projects including:
 - Zoning and planning requirements
 - Site grading
 - Roadway and street design
 - Stormwater, drainage and hydraulic calculations and design
 - Septic and utility design
 - Construction document preparation
- Excellent written, oral and presentation skills
- Proficiency in Autodesk AutoCad Civil 3D 2016 or higher
- Knowledge of Hydrocad Stormwater software a plus
- Multi-discipline project management experience
- Proficiency in MS Office especially WORD and EXCEL
- Understanding of or experience in Traffic Engineering a plus
- Valid driver's license and ability to pass a drug test

This position will report directly to a Company Principal. CCA is an equal opportunity employer that welcomes diversity in its workforce. All qualified individuals will receive consideration for employment without regard to race, color, age, religion, gender, national origin, disability and/or protected veteran status in accordance with governing laws.

Salary will be based on experience and energy. Benefit package includes vacation time, holidays, sick leave, health benefits and 401k plan. CCA is located at 40 Old New Milford Road, Brookfield, CT 06804. Send resume to employment@ccaengineering.com.
